ABOUT ADVANCIS

Since 1994 Advancis provides the security, safety and building management industry with its highly flexible and open architecture command & control system, WinGuard PSIM.

Advancis is committed to open architecture and vendor neutrality since its foundation. Our command & control technologies provide clients with freedom of choice and the ability to unify disparate system brands of all types into a single management application that offers enhanced security and greater system efficiency. WinGuard also reduces operational costs and provides a rapid return on investment.

Advancis is a constant innovator with regular product improvements and developments for the global PSIM market.

TECHNOLOGY PARTNER PROGRAM

We work in close partnership with an ever growing community of technology partners around the world, with currently over 470 integrations to best of breed vendors.

With this close cooperation we can achieve a deep integration of our technology partners' systems and a comprehensive functional scope. Regular communications and meetings with the partners technical personnel ensures that our driver interfaces are always state of the art.

Advancis employs highly skilled and qualified employees who provide excellent support to fulfill the ongoing needs of our joint customers. Our joint value solution with partners generates greater market awareness and cross selling potential.

AVIGILON™

PREMIUM PARTNER - AVIGILON

The Avigilon portfolio of fixed video cameras, video management software, advanced analytics and smart access control systems are part of Motorola Solutions' mission-critical ecosystem designed for public safety and enterprise security.

Avigilon Control Center (ACC) video management software is designed to bring the right information to you, so that you can take action. It is an easy-to-use, AI-enabled user interface which helps ensure critical events do not go unnoticed. Avigilon solutions are built on an open platform and designed for seamless interoperability with third party technology so integration is made easy.

“

The Avigilon video security portfolio of fixed cameras and video management software is designed for seamless interoperability with third party software and hardware so customers can leverage existing security investments. The Advancis Winguard integration with Avigilon Control Center enables Winguard users to view and monitor events and execute PTZ controls through Winguard's comprehensive PSIM platform. With this integrated solution, situational awareness is enhanced for the end users and provides efficient and intuitive security information management capabilities.

JOINT SOLUTION

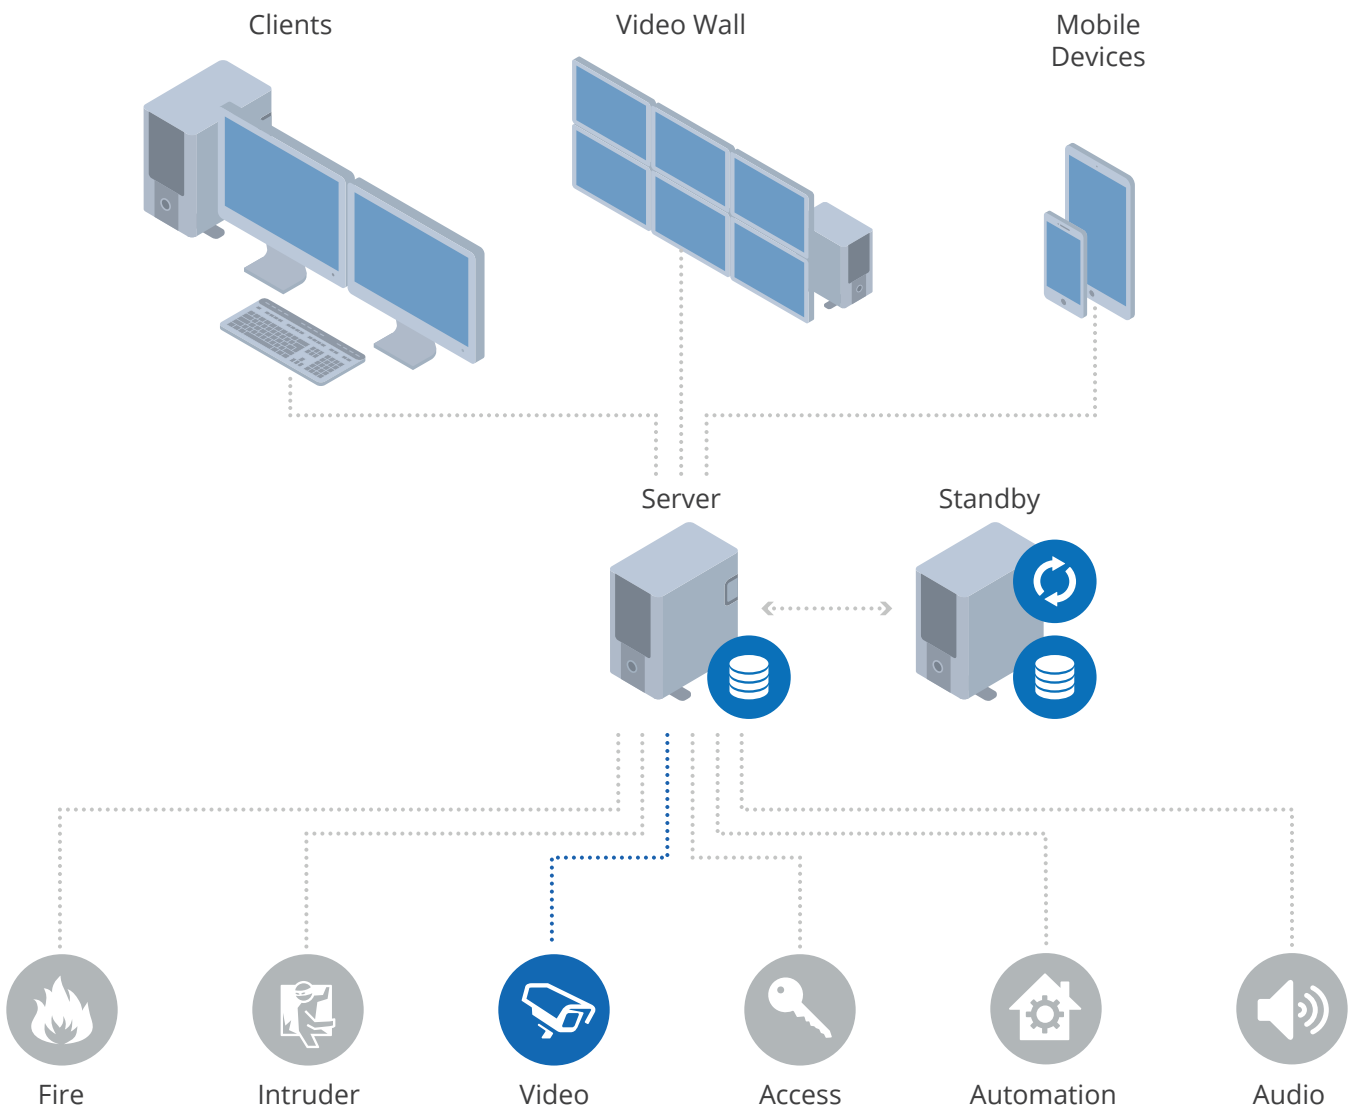

Avigilon Control Center is completely integrated in Advancis WinGuard. It is possible to observe live streams, control cameras (PTZ), request playback videos, and more. Advancis' WinGuard ACC integration is compatible with ACC6 and ACC7 versions.

- ✓ Open platform solution for complete infrastructure integration and management
- ✓ Flexible user interfaces that adapt to customer requirements
- ✓ Guided process instructions support the user in event processing
- ✓ Reports offer a quick overview of relevant key information
- ✓ Mobile apps provide insight to all incidents and operations at any time
- ✓ Scalability from a single workstation to multiple control centres with redundancy and failover

- ✓ **COVID-19 Response Technology**
Operate safely and comply with local health and safety guidelines by deploying powerful video analytics.
- ✓ **Cloud-Connected ACC** : Avigilon Cloud Services enables you to connect existing ACC sites to the cloud for easy and secure remote access to video.
- ✓ **Facial Recognition**: AI-powered facial recognition technology helps organizations accelerate response times by identifying people of interest.
- ✓ **Focus of Attention Interface**: Focus of Attention uses AI to detect and flag events that may require your attention, highlighting potentially critical events.
- ✓ **Access Control Unification**: ACC software unifies with your Access Control Manager™ system seamlessly.
