As a part of Motorola Solutions’ Video Security & Analytics portfolio, Avigilon offers intelligent products and technologies that integrate to form the first and only mission-critical ecosystem that unifies voice, data and video security. Powered by AI, our solutions constantly learn to recognize what events are important, and which of those should be brought to a security operator’s attention, keeping them more aware and your client’s site safer.

SOLUTIONS DESIGN PROGRAM FOR ARCHITECTS, ENGINEERS AND CONSULTANTS

As a part of Motorola Solutions’ Video Security & Analytics portfolio, Avigilon offers intelligent products and technologies that integrate to form the first and only mission-critical ecosystem that unifies voice, data and video security. Powered by AI, our solutions constantly learn to recognize what events are important, and which of those should be brought to a security operator’s attention, keeping them more aware and your client’s site safer.
DEDICATED SOLUTIONS DESIGN SUPPORT

- Proactive A&E support with industry expertise at the local and corporate levels to help ensure consistent coverage and design, even in complex, geographically-dispersed projects.
- Qualified Sales Engineering support with extensive product knowledge to help you design diverse projects across both video security and access control, as well as offer on-site product testing and pilot deployments.

MASTER FORMAT SPECIFICATIONS

- Create product and system building specifications efficiently with Avigilon Product Specification Documents in the latest CSI/CSC Master Format
- Electronic Security categories and section numbering (i.e. Division-28)
- Easily editable documents, making it simple to specify Avigilon products and systems

INDUSTRY-LEADING TOOLS AND RESOURCES

- Avigilon System Design Tool (SDT)
  - Helps translate customer operational requirements into technical solutions
  - Provides camera selection and placement, field of view and pixel per foot (PPF) calculations
  - Allows you to size storage requirements
  - Save, print and export designs
- Quote Generator
  - Easily estimate budgetary design costs
- BIM (Building Information Modeling) for Autodesk® Revit®
  - Reduce design time with our advanced 3D design tools
  - Provides “through the lens” field of view in 3D so you can see what the camera is seeing
  - Create BOM with camera location, power requirements, lens selection and mounting options
- CAD drawings
  - Available in a comprehensive library of Avigilon products
WHAT AVIGILON CAN DO FOR YOU

Our mission is to be the design community’s most trusted and engaged go-to manufacturer by delivering best-in-class products, solutions and resources. In addition to offering world-class design support, we also offer the following:

TECHNOLOGY SOLUTIONS TRAINING:
- Avigilon Control Center (ACC) video management software
- Access Control Manager (ACM)
- Avigilon Cloud Services (ACS)
- Video security cameras
- Video analytics

PRODUCT PRESENTATIONS AND DEMONSTRATIONS

ON-SITE ‘LUNCH & LEARN’ TECHNOLOGY PRESENTATIONS

COMPLIMENTARY ONLINE TRAINING

ONVIF® SUPPORT

24/7 TECHNICAL SUPPORT BY PHONE OR ONLINE CHAT

STANDARD 3-5 YEAR WARRANTY WITH OPTIONAL 2-YEAR EXTENDED WARRANTY

ADVANCED SECURITY SOLUTIONS, MADE TO TRUST

As a pioneer of high-resolution video security systems, Avigilon today continues to innovate and harness the power of AI and video analytics to help redefine the way operators interact with their systems and solve real-world security challenges.

With R&D and manufacturing facilities located throughout North America, we are proud to be a company that creates trusted security solutions that our global customers can rely on. As a part of Motorola Solutions, we continue to build a legacy that has been driven by over 90 years of innovation.
